PATENT

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In re Application of

CHARLES A. BYRNE

Serial No. 10/701,052

Filed: November 3, 2003

For: IMPROVED METHOD FOR
MANUFACTURING ANIMAL
CHEW TOY

Group Art Unit: 1732

Examiner: Stefan Staicovici

Docket No. MAMMO-44436

DECLARATION OF CHARLES A. BYRNE
UNDER 37 CFR 1.131

I, Charles A. Byrne, submit:

1. I am the sole inventor of the subject matter of the above-identified application, which claims priority from U.S. Patent Application Serial No. 10/414,630, filed April 15, 2003, which claims priority from U.S. Provisional Application Serial No. 60/372,849, filed April 16, 2002.

2. I am the President of CB Worldwide, Inc. (hereinafter referred to as "CB"). CB is the assignee of the above-identified application

3. I have worked in the field of pet toys for over 20 years. For example, I am also the inventor of co-pending application 10/414,630, which was cited provisionally against the present application. A copy of my Curriculum Vitae is attached as Exhibit A.

4. I conceived and reduced to practice the subject-matter of my application prior to January 31, 2002, the date the application that became Levin et al., U.S. Patent No. 6,672,252, was filed with the United States Patent and Trademark Office.

5. My review of drawings, documents, U.S. Provisional Patent Applications, and other materials documenting my conception of the improved method for manufacturing an animal chew toy indicates, and documents confirm this, that this conception occurred well prior to the filing date of the Levin et al. patent. (See, Exhibit B, attached hereto).

6. I conceived of the improved manufacturing method set forth in the specification and claims of my provisional application, Serial No. 60/372,849, followed by U.S. Patent Application Serial No. 10/414,630, which was followed by the filing of the present continuation-in-part application, U.S. Patent Application Serial No. 10/701,052.

7. As can be seen from the provisional and utility applications, I had been working on developing the manufacturing process at least as early as April 16, 2002, and my statements outlined below demonstrate I had been developing the manufacturing process well before that.

8. Between 1995 and 1998, while developing and marketing dog chew toys, I discovered that rubber with nylon embedded in the rubber had beneficial qualities for a dog chew toy. During this time I had considered actual tires and various shapes for dog chew toys using similar material but was not aware of a manufacturing process to produce such products at the time.

9. Between late 1998 and 1999, after considering a small car tire for dogs and bone shapes made from knotted strips of tire sidewalls, I determined that, at the time, these products had manufacturing constraints.

10. Around September 2000, I was presented with a small lawn mower tire as a dog toy. I investigated this item but found there were several problems: dogs were able to easily tear apart the rubber, the lawn mower tire was too heavy, and dogs didn't like the solid rubber. This revitalized my interest in pursuing tire-shaped toys for dogs.

11. During this same time, around September 2000, while at a hardware store, I discovered small 10" pneumatic tires/2 ply nylon with metal rim that were used for trailers, hand trucks and wheel barrows. I purchased this item and removed the metal rim and tested it with dogs. The dogs liked this item. It was light enough due to the relatively thin rubber walls and the embedded 2 ply nylon gave the rubber added strength. I thought this was a desirable item and decided to pursue improving this type of molded product for use as dog chew toy.

12. Between September 2000 and January 2001, I started investigating small pneumatic tires from various suppliers - Northern Tools catalog, GBC tire sales, Carlisle Tire. While at Do-It Center, I found an 8" diameter size Hand Truck tire and thought that smaller sizes under 10" would be desirable. See 1/06/01 Do-It center and 1/8/01 Northern Tool Proof of purchases attached hereto as Exhibit B.

13. I found that purchasing tires through US sources would be too expensive for a tire dog chew product to get to market since it would be too expensive at retail. Also I felt that a custom tire oriented toward dogs and dog guardians would be more desirable. Because of the US tire cost and the desire for a custom tire, I started investigating foreign sources of small tires.

14. I discovered that Chinese hand truck and wheel barrow manufacturers also made small tires under 10" diameters. I started contacting several Chinese tire factories. I also discovered during this period that the small pneumatic tires had one major problem - they had a metal wire bead that when the dogs chewed into this section of the tire the metal bead could hurt the dog's mouth. I therefore concluded that the tires should not have a metal wire bead. I also thought it would be desirable to have tires in colors and a pleasing scent (e.g., spearmint). Additionally I thought that if I could make tire shapes I could also make various pet product shapes - Bones, flyers, ball shapes, etc using similar process.

15. Between January and April 2001, I found several Chinese factories that had an acceptable cost and was willing to start developing custom pneumatic tires under 10" diameter. Unfortunately these factories could only produce tires with metal wire beads. I decided to continue developing the tires for dogs even through the metal bead issue was not resolved.

16. I investigated several methods to eliminate the wire metal bead. I suggested plastic beads or using the nylon mesh fibers in a special fashion that would create a supporting bead section. One of the factories was able to use the nylon mesh fibers in a special fashion that would create a supporting bead section. I decided to use this factory and we made molds and place initial orders for 6", 8" and 10" diameter tires - no metal bead - spearmint scent. I also inquired about 4 ply nylon in rubber tires.

17. Around June 2001, I exhibited the tires for dogs at the San Diego Convention Center at the America Pet Product Manufacturing Association (APPMA) trade show.

18. Between December 2001 and March 2002, I produced a first order which shipped around March 2002.

19. I filed U.S. Provisional Application Serial No. 60/372,849 on April 16, 2002.

20. Between 2002 and 2003, the basic tire 6", 8" and 10" were a huge success at retail. I decided to continue development of additional rubber pet

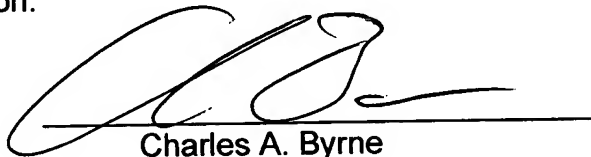

product with 2 ply and 4ply nylon (e.g., rope for dogs) and developed various shapes (bone, flyer, retriever) with 2ply and 4ply nylon.

21. Due to continual R&D and new discoveries, I filed the instant application.

22. It should be clear from the foregoing that the subject-matter of Levin et al. was well-known to me, the inventor of the instant application, as I had conceived of and been developing this subject matter well prior to the Levin et al. filing date.

23. The undersigned declares that all statements made herein of my own knowledge are true and all statements made on information and belief are believed to be true; and these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code, and that such false statements may jeopardize the validity of the application or any registration resulting thereon.

Dated: July 14, 2005

KELLY LOWRY & KELLEY, LLP

Charles A. Byrne - Curriculum Vitae

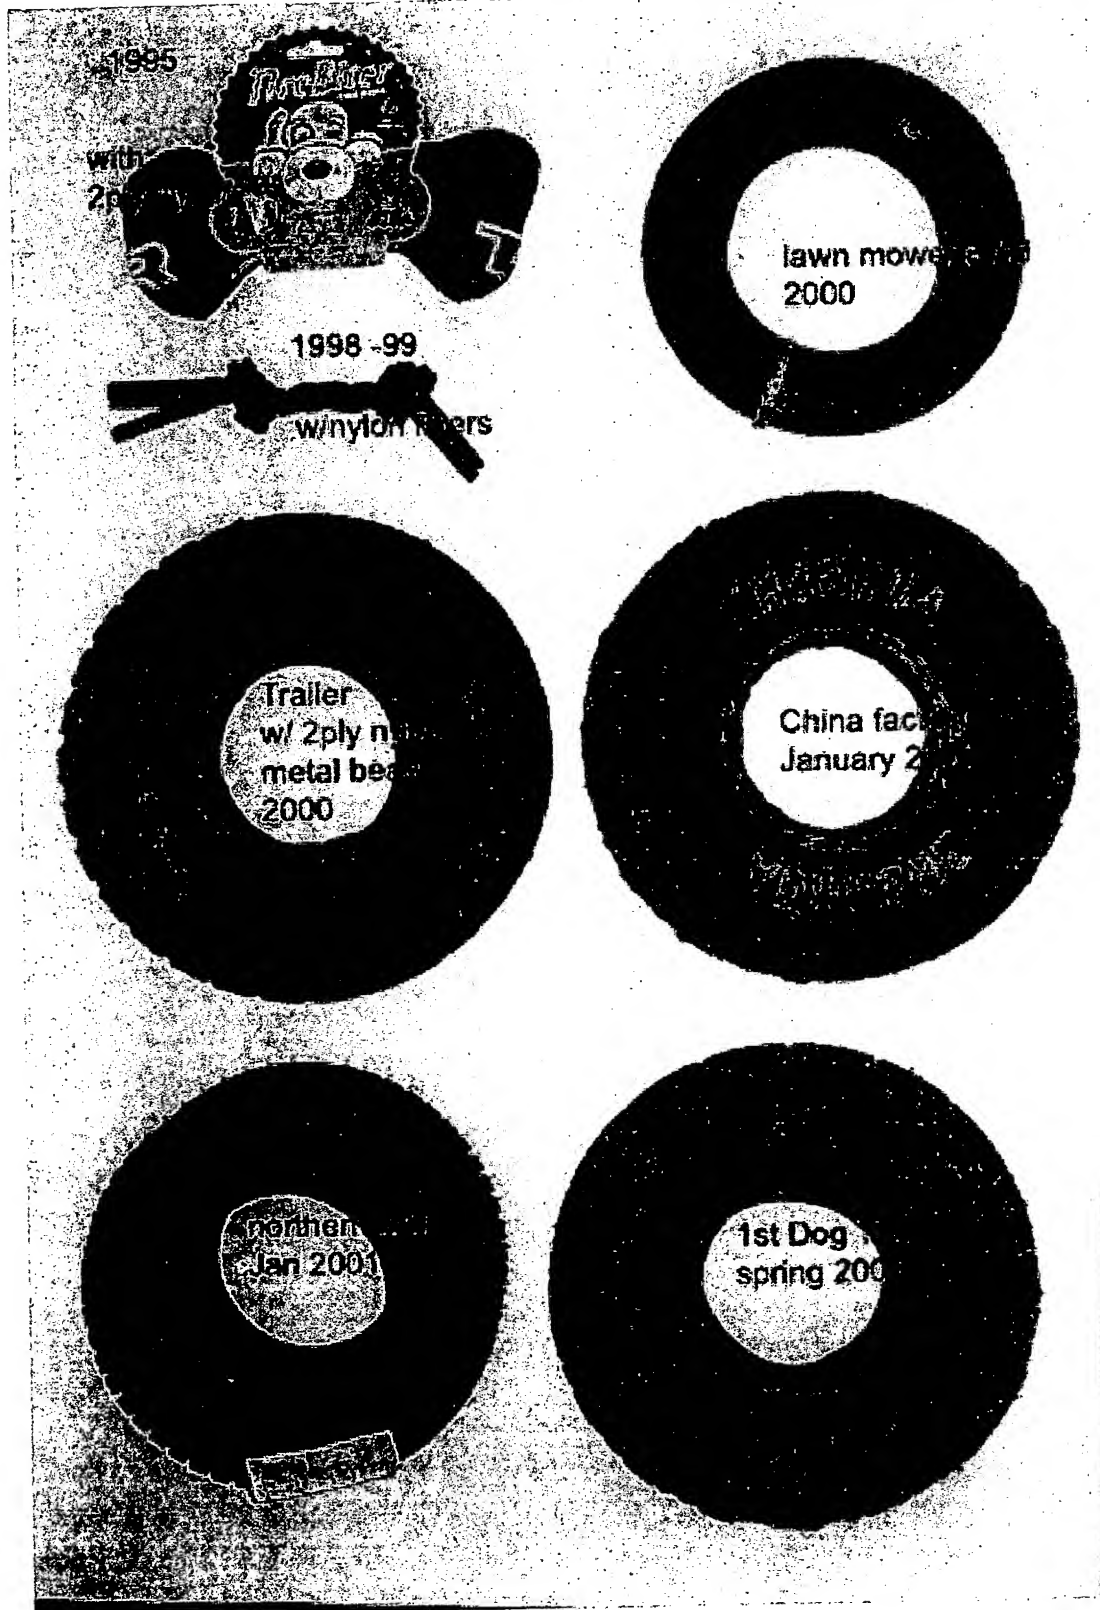

1983 – 1993

Worked for Booda Products manufacturer of pet products – cat litter boxes, cat toys, cat furniture, dog toys, and dog treats. I was VP Operations, Export Sales & Research and development. Developed over 100 pet products for Booda Products. Developed several patented products under the Booda label. Booda Products was sold to Aspen Pet products in 1996.

1993- Present.

Started CB worldwide Inc dba Mammoth Pet Products. Currently president. Developed and manufactures over 300 pet products namely Flossy Chews cotton rope toys, TireBiter rubber chew toys, Tennis Chew tennis ball products, and X-Mat training mats. Holds several US patents for Tirebiter and X-Mat products.

Truck Wheel Dolly Makes Tire Handling Easy

Heavy duty dolly lifts up to 280 lbs. Saves backs when removing and replacing heavy truck wheels and tires. 3" casters allow accurate positioning under tire. Dolly supports weight as wheel slides off hub. Replacing wheel is just as simple. Rollers on each leg allow wheel to be rotated for stud alignment as wheel slides onto hub. Ship Wt. 18 lbs. Item# 145899-B226 Manual Price \$39.99

Tire Bead Breaker

Ship Wt. 10 lbs. Item# 145899-B226 Discount Price \$14.99

A Portable Mini Tire Changer

• Pays for itself after a couple of uses!
• For all tires with 4" to 12" rims
Completely portable! Ideal for ATV, lawn equipment, trailer and other vehicles with smaller tires. Includes 2 bead breaker bars, a 21" long demount/mount tool, aluminum centering cone and 2 nylon spacers. Overall 16"H. Ship Wt. 17 lbs. Item# 13473-B226 Discount Price \$39.99

B Heavier Duty Portable Tire Changer

• Change your own tires and save BIG money!
• Handles tires from 8" to light truck (7.5 x 16 and flotation tires up to size 12.5 x 16)

Manual tire changer has a 15" x 18" base and 7 1/2" diameter x 3/16" thick wheel rest plate. All steel construction. Ship Wt. 51 lbs. Item# 13472-B226 Discount Price \$69.99

Large Manual Tire Changer Handles All Tires up to 16"

11 1/2" dia. x 1/4"W wheel rest plate. Base is 27 1/2" x 18 1/2". Otherwise similar to #13472-B226. Ship Wt. 57 lbs. Item# 13474-B226 Discount Price \$89.99

Fully customizable bike tires with a 90-day money back guarantee. Our proprietary urethane construction process makes the Air Free bicycle tire act like sneakers for your bike.

We are so convinced that you will absolutely love these tires, that we will give you 90 days to try them out.

Every Air Free Bicycle Tire we make comes with an unlimited and transferable* lifetime warranty. Made in the USA, our durable micro-cell urethane gives you twice the mileage of conventional rubber bicycle tires while not sacrificing comfort. If you ever wear out our tires, send them back for a replacement pair.

Join the thousands who ride their bicycles with more confidence and added safety. No more pumps, no more patch kits and tubes and no more hassles, ever! We guarantee it.

Bicycle Tires Made Worry Free!

That's right. Space age construction and space age engineering means you will never have a flat again. Comfortable, yet durable. How is this possible? Get the answers on our frequently asked questions.

Installation is a Snap!

Air Free tires snap right onto the rim when you use our specially designed tool. Yes, a little elbow grease is required but it's well worth it. Our handy install tips will ensure you enjoy the tires as much as we do. Tech support is available too!

Proud Partner of the
Toronto Yellow Bike
Program

Air Free Tires are the only urethane composite bicycle tires that can be manufactured to the psi equivalency you specify. Customizing your tires will enhance your riding experience.

Bicycle Tires Sizing Made Easy.

The easiest way to order the right tire is to know your tire size. But what if you don't? We already thought of that and have prepared a tire-sizing chart. Although we don't have a database of every bicycle tire rim ever manufactured you should find the form helpful. Of course you can always call us when befuddled.

Actual Testimonial

To Whom it may concern.

Last week I put your bicycle tires through an especially rough ordeal. I was riding along a country road early in the morning at about twenty miles per hour. An oncoming motorist was passing someone across a double yellow line and....

High Resilient Urethane and New Tire Designs Makes Debut 12/00

Many of our airless bicycle tires can be made with either our standard micro-cell urethane foam or our new high resilient formula. Also we have added 6 new tire designs to the collection in just the last 2 months and have more coming. By the end of January 2001, Air Free Tires will have over 30 different bicycle tires. The largest selection anywhere!

Bicycle Safety

We think highly of your cycling safety and to that end we have assembled a collection of links that address safety. Could it be that wearing a helmet and using our tires might be the safest things you could do?

Outrageous things to do with a Bicycle.

Looking for that special something to do with your bicycle just got easier. We have scoured the planet looking for and finding unique and out of the ordinary ideas for you, your bike and our tires.

Hold the presses!

Haven't heard of our tires before? That's going to change. Check out the latest media placements, paid advertising and articles written about us and the non-pneumatic tire industry. Find out why everyone thinks this an idea whose time has come.

Air Free has a new shopping cart

Exciting new cart remembers you and automatically deducts 15% off of your next purchase. Browse the site and add products to your cart and where the cart asks you to log in, enter your name and your email address and watch the price go down. Air Free rewards its' loyal customers. New customers can always get a 10% discount when purchasing four or more tires.

The Air Free Story

Get the warm fuzzies and find out why and how Air Free got started and how such a little company puts such a large emphasis on you!

Dear Mr. Charles Byrne,

Having obtained your name and email from "meetchina", from it we find that you need the small tire 6"-9".

We are a specialization manufacturer for tire, especially the small size. We have made tire for many years for Import & Export Company. And now we own have the I/E license, we can export by ourselves. Then I email to you and want establish direct business relations with you.

I want know the tire you need is solid or pneumatic, and could you give the picture of the tire by e-mail, then I will give you price for your reference.

Contract : Chen Zhaofeng
Company : Qingdao Mingxing Metal Products Co., Ltd.

Dear Mr. Byrne,

Thank you for replying. I want know the item you required. regarding our products the tire of 8" is 2.50-4 and the 10" is 3.50-4. I can provide the picture of wheel used the tire, the pr1400 use the 8" tire and the pr1800 use 10" tire. Others, I want know which sample of you required will be. Your picture is much like the 3.50-4.

Here is the quantities of tire contained in container:

MODE	TIRE PRICE	TUBE PRICE	QT'S FOR CNT 20'/40'
2.50-4	USD 0.50	USD 0.40	17,000/34,000 PCS
3.50-4	USD 0.75	USD 0.43	10,000/20,000

The above price based on the FOB Qingdao.

Our company is located on the Yinzhu Town Jiaonan City Qingdao China.

Zip Code: 266431

Tel: +86-532-3190003

Fax: +86-532-3191537

Qingdao Mingxing Metal Product Co., Ltd.

Welcome you to our company and looking forward to your early reply.

DEAR MR. CHARLES A BYRNE,

THANKS FOR YOUR REPLYING AND SORRY FOR ANSWERING SO LATE.

AFTER READING YOUR EMAIL, I CHECK OUR PLANT THAT WE HAVE MADE THE SMALL TIRE SIZE ARE 8" AND 10" , NOW WE ONLY MADE THE BLACK TIRE. FROM YOU PICTURE I FIND THAT THE TIRE IS MUCH LIKE OUR 10X3.50"-4 TIRE. AND IN OUR TIRE THERE ARE METAL WIRE IN THE INNER RIM. FROM THE PICTURE I THINK IT MUST HAVE THE METAL WIRE. BUT THERE HAVE NO METAL EXCEPT THIS PART.

CUSTOM MARKING ON THE SIDE OF THE TIRE IS PERMITTED, BUT YOU SHOULD GIVE THE WARRANTY. FOR WE HAVEN'T MADE THESE SIZE OF TIRE, IF PRODUCTING WE NEED THE MOLD, AND WE ALSO NEED CUSTOM REQUIRED MOLD. FROM YOUR QUALITY OF DEMAND. WE CALCULATE THE COST OF MOLD MAYBE USD 10,000. IF YOU LET US PRODUCT YOU SHOULD GIVE US USD 4,000 FOR WE MADE THE MOLD THE BALANCE FOR OUR CHARGE. IF THE QUALITY YOU HAVING IMPORTED IS LARGE ENOUGH WE WILL RETURN THE COST OF YOURS. FOR ANOTHER HAND DO YOU NEED THE INNER TUBE. IF THE PICTURE YOU GIVE ME HAVE THE TUBE I HAVEN'T SEEN CLEARLY.

IF POSSIBLE COULD YOU SENT ME THE SAMPLE OF TIRE.

THERE ARE ANOTHER PROBLEM ABOUT THE OF TIRE:

- 1) THE PLY OF TIRE . 2PLY OR NOT?
- 2) THE TIRE IS USED IN CASTOR, TOOLS OR OTHERS?
- 3) IS THERE OTHER REQUIREMENT SUCH AS AIR PRESSURE, LOADING WEIGHT.....

OUR COMPANY HAVE NO WEB SITE. BUT WE WILL MAKE IT SOON.
WE WILL ATTEND THE CHINA COMMODITY EXPORTING FAIR (CCEF) IN GUANGZHOU THIS APRIL.
IF YOU HAVEING INTERESTING PLEASE VIST AND WE WILL MEET TOGETHER. WE HAVE ATTEND THE FAIR LAST OCTOMBER. THE FAIR IS THE LARGEST FAIR IN CHINA.

YOUR EARLY REPLYING WILL BE APPRECIATED FOR WE WILL HAVE THE HOLIDAY FOR THE SPRING FESTIVAL.

WITH THE BEST REGARDS,

CHEN ZHAOFENG

Dear Mr. Byrne

Thanks for your message and tell you I have send sample to you by DHL, but the telephone I written in the DHL was (760)9344439 that you gave me early, is that right or not? I send you 4 sets sample as the picture I given you, 2 sets PR1400 tire and tube, 2 sets PR1800 tire and tube. The samples is for your reference.

The mainly artwork in the tire was made as customer required, as the sample is our common design. Give the customer sample we will make the mold. The mold will be made in twenty days.

Regarding the metal bead, we can replace the metal bead with hard nylon plastic bead, but this maybe increase the cost of products.

About the price of colorful tire the price will be USD1.40 one set for 8" and USD1.90 one set for 10", if make it we will prepare the different material from the black and there will be many waster in the first products. Give me the detial of your products, I will make the correct price.

I want to start the business soon too.

After receiving the sample please inform me the advice of yours.

With the best regards,
Chen Zhaofeng
zhfcchen@21cn.com

Dear Mr. Charles:-

The No. of DHL bill is 211 1800 154.
We have made the tire with nylon bead but it is not good with the metal bead.
Can you give me some advice for the nylon bead or give me some sample of tire
with nylon bead and the nylon wire. Now the shap of tire with nylon bead is
not as good as the metal. I also want know the use of the small tire, for toy
or not?

The price of tire for colorful maybe USD 1.00 for 2.50-4 and USD 1.50 for
3.50-4. If the quantity is large it will be decline.

With the best regards,

Chen Zhaofeng

Dear Mr. Byrne:

Sorry to answer you so late. These days I have been out for the company's work, today I went back and find you have email me.

Now I give you the price of the solid rubber wheel. The SR1104 is at USD 0.55 per piece FOB Qingdao and the SR1502 is USD 0.60, this is the full wheel price. And the rubber part price is USD 0.40 and USD 0.45 FOB Qingdao.

I will give you the metal bead of the tire, and we also can make the logo letters on sidewall in white.

You are welcome to come here and visit our corporation. Before you come please inform me. Tell me what can I do for you?

The agreement of the nondisclosure will be fax to you with our seal. And the invitation letter will also fax to you.

Regarding the samples now we can't make the color sample for it have difficulties to make good sample with the black tire making equipment. For the color tire, please visit our plant and then have the further negotiation.

With the best regard,
Chen Zhaofeng
zhfchen@21cn.com

Subj: trip to Shanghai
 Date: 3/5/2001 1:35:13 AM Pacific Standard Time
 From: wrxu@cntic-sk.com.cn (Kevin Xu)
 To: cbdynamo@aol.com (Charles A. Byrne)
 File: tire.jpg (82509 bytes) DL Time (44000 bps): < 1 minute

Hello, Charles

Thanks for your mail!

1) Invitation letter

I knew that you got the invitation. Please go our visa office for visa at your convenient time and place. And tell me your schedule when you make your decision. I'd like to book the hotel for you and make a better arrangement for your trip in Shanghai and Suzhou.

2) samples

Did you get my samples: tennis ball, cotton rope? Any comments to it?

3) tires

I found one manufacturer in Qingdao: Taifa Group Co., Ltd. with the help of one friend of mine.

This factory is the largest manufacturer of handcarts in China, it also make all kinds of tires and gained accreditation to ISO9002 & GS certification.

It was said this factory got good reputation & good quality.

I contacted this factory and sent the tires photo to them, they said they can produced it.

It is hard to figure out whether this two size of tires has inner tube in it only by photos. So the price is different:

If it is the tire with inner tube, the price will be:

	Size	FOB Qingdao	Packing
8"	2.5-4	USD1.36/set	10 sets/roll (12000sets to a 20" container)
10"	3.5-4	USD1.45/set	10 sets/roll (11000sets to a 20" container)

If it is the tire without inner tube, the price will be:

2.5-4	USD1.50/pc	5 pcs/roll (7000 pcs to a 20" container)
3.5-4	USD1.58/pc	5 pcs/roll (6000 pcs to a 20" container)

Attached please find some tires they produced.

Thanks & best regards

Kevin Xu

Dear Chen:

I have been trying to email you for several weeks. I have received no reply. Are you receiving your emails?

I understand you called my office last week. Sorry I was not available.

I have not received the sample of the 3.50-4 RED tire yet. Did you send it? Please send-shipping details. I am anxious to work with you and move forward on this project.

Please email me or send a fax. Fax. 760-934-9985

Hope you are well.

Regards,

Charles Byrne

re.fax

Dear Mr. Byrne,

Thank you for your fax, I have sent you the sample by DHL. Before I sent sample, I emailed you several times with the picture of color tire. I want send the sample before you confirmed, but I went to Guangzhou on April 10, 2001. Then I send the sample on that day.

I think you have received the sample now. Sorry to tell you I can't receive your email but I can send email. Your fax has been given me by my mate. If you contact me please phone me by +86-13061278087. I now attend the CECF in Guangzhou, and will be back on April 28, 2001.

I now email you by a public email box. You must not reply it by the email address. If you email me please use the address zhfcchen@21cn.com I will try my best to receive the email in Guangzhou.

Please call me when you have some requirement.

With the best regards,

Chen Zhaofeng

Dear Chen:

Thank you for your email.

I did not receive any of you recent emails or pictures of color Tire. Please resend. I think something is wrong with your email server.

I did not receive the colors samples via DHL. Please advise the DHL tracking number so I can track on my side.

I have tentative plans to be in China the first part of May. Will you be available to meet in Qingdoa on May 14-15th. I would like to visit you and the tire factory. Please confirm.

Dear Chen:

Your email is not working zhfchen@21cn.com. I have received your emails from different public email address.

I received the color tires today. I like the red color tire. Can you make red color brighter?

Please confirm best price for the small tires 2.5-4 and 3.5-4 in colors.

I am currently working on artwork for the custom sidewall and tread artwork section. How long to make custom mold with my sidewall and tread artwork designs?

Hope you are well.

Regards,

Charles Byrne

Re:

CC:

Dear Chen:

Faxed are rough drawings for the tread and sidewalls of the small tires. Let's start with the 3.5-4 size first. Please review drawings and advise comments ASAP. I want to finish artwork so you can start on mold. Please advise what format you would like artwork. Can you use Adobe Illustrator file for artwork. Can you receive file from a FTP(file transfer protocol) site. Please revise.

As you can see this is a toy for dogs. Must be non-toxic and safe. Metal bead is OK.

Please confirm best prices in red, green and black rubber. Is there anyway to make red color tire for \$1.35 since this would be a good price to make large volume.

Please keep all information confidential. This product is patent pending which will be good for both are companies. I would like to visit you in Qingdoa May 14th -15th to visit factory and discuss new product. When can you have mold ready for sample production? What hotel do you suggest I stay at?

Please email me. I hope you are well.

Regards,

Charles Byrne

Dear Mr. Byrne,

Thank you for replying me so quick, and sorry to reply you so late.

Sorry to tell you I am now in Guangdong not in Qingdao(Your fax refer the 'Qingdao') I can't receive e-mail and also not have a trip in internet. When I am back I can receive file from a FTP site. And I will be back on April 30 2001. Is it late?

The non-toxic and safe is no problem.

I have give you price on the last e-mail and the price for the tire is two ply (2PLY), if 4 ply the price will be expensive. As a toy I think 2 ply is all right. Give me the quantity you need one month and we will decide how many mold to be made.

The price for red USD 1.35 will be accepted if the quantity large enough. Welcome you to our corporation, there is hotel in my corporation if you like you could stay in it. If you don't there is a Guoliu Hotel in our area. Before you go please tell me the time for airplane arrive Qingdao, I will take you up.

From the fax I find the picture you give me is like a car tire. The specification of tire is contained, as a toy I think it is unused.

The information is keeping confidential in the whole time. you don't worried.

Please call or fax me when you have some requirement.

With the best regards,

Chen Zhaofeng

Re:

CC:

Dear Chen;

Thank for your message.

Thank you for confirming prices.

I would like to place sample production run order of **1000 units each 3.5-4 and 2.5-4** in bright color. Red – Green. I need at least **100 pieces of 3.5-4 by May 20** for test marketing at big exhibition. I have a **big trade show June 3-7** where I want to introduce this new product to US market. I sell to over 1000 customers in US, Canada, Japan, and Europe.

If sample production run and trade show is acceptable I will order a container load. Approximately 5000 of each size. I hope to order 5,000 – 10,000 units per month. I hope to order a container per month once the product has been acceptable by market.

Since this is a consumer product it must be clean, no bad smell, non-toxic, and look good. Please confirm that you can make mold to my artwork. I will have final artwork this week. Perhaps you can start to work on the mold before your return April 30th.

I will be in Qingdoa May 13th – May 15th. Let's plan to spend some time together. I will let you know about hotel. I understand that Qingdoa is a very nice city.

I think it is important that I understand how the small tires are made so I can market the product effectively. Please advise the materials used produce small tires. Also is it possible to add a nice fresh scent to the tire rubber to make smell good.

Hope you are well.

Regards,

Charles Byrne

re.fax

Dear Mr. Byrne,

Thank you for your message, I want know the when the final artwork will be OK?

After checking the quantity you need I think the cost of the mold will be 10,000 US dollar, If you give 3,500 US dollar, that will be OK, the balance will be our charge. Is that OK? Please confirmed and then we will start.

Please let me know the time of yours when it is 0 clock in China. Beijing Time is 8 clock earlier than the Greewhich Time. Then I will call you if possible.

Please call or fax me when you have some requirement.

With the best regards,

Chen Zhaofeng

re.fax

Dear Mr. Byrne,

Thank you for replying me so quickly. It is pleased to know that the sample I giving you had reached you.

We can make the red tire with brighter red.
The color tire price is USD 1.10 for 2.50-4 and USD 1.30 for 3.50-4. If the quantity is large enough the price will be lower.

The mold will be made in 15 days, and could you tell me the quantity you need in a month then we will decide how many sets mold will be made, the package of the tire for we calculate the quantity for the container.

Please call me when you have some requirement.

With the best regards,

Chen Zhaofeng

Re:

CC:

Dear Chen:

Thank you for your message.

I can have tire artwork finished by April 27th. I can put on my FTP site for you to pick up.

Is the \$3500 mold cost for both sizes 2.5-4 and 3.5-4. We need both size. Maybe a 3rd smaller size later. Please advise you best mold cost. I can wire \$1000 deposit payment to get you started. Balance will be paid upon receipt of final acceptable product. I think this is fair. Please advise your bank wire transfer information. Please note that a different tire manufacturer offered to make mold for \$1000.

Can you produce 3.5-4 mold and samples by May 20th? Maybe you can have mold finished for my visit on May 14th.

I notice on the color samples that the rubber on the inside is black and has bad smell. Can you make the bright color on the inside also?

I am 16 hours behind China time. So 0 clock is 16:00(4:00PM) California time. Best time to call me is 4:00 PM in the afternoon China time. That would be 8:00 AM in the morning. Call me at my home office at (760)934-4439.

Regards,

Charles Byrne

* Please make hotel reservations at

To: Jack/Chen Zhaofeng, Qingdao Metal **From:**

Fac: **Pages:**

Phone: **Date:** April 27, 2001

Dear Jack:

I t was nice speaking with today. Faxed is a copy of the \$1000 wire payment application for the 2.5-4 and 3.5-4 small tire molds.

Please note that my estimated monthly volume is 10,000 pieces each size. It will take time to get to this volume since it is a new item.

I will email a JPEG of the artwork by Monday. What kind of artwork is acceptable? Since the original artwork file is very big I would like to put this on my FTP site for you to download. You will need FTP software to download a FTP file. IPSWITCH is the FTP software I use. The original artwork is in **Adobe Illustrator PC format**. Can you handle this type of file?

When will your email work? Emails are better than faxes.

Hope you are well and I look forward to meet you.

Regards,

Charles Byrne

Dear Charles,

Thank you very much for your fax of remitting money.

I am sorry that I made a mistake of the cost for the mold on last fax. The cost US\$3500 is for 10000 pieces tires per month not for 100000 pieces, quantity of the mold is 8 sets.

Regarding the monthly volume, thank you for reminding me the detail volume for each size, I understand you, you mean from the beginning we make little sets of the mold, later when the volume of each size is upto 10000 pieces we make more mold but the cost of the mold will be US\$7000. we want to see your artwork as soon as possible.

Thank you very much and best regards.

Dear Chen:

I hope you returned safely from your trip.

TireBiter artwork design

The artwork is finished for the 3.5-4 tire. Faxed are copies. I can email your JPEG and Adobe Illustrator files. Is your email working? The Adobe Illustrator is very large so I would need to put it on my FTP site. Please confirm that 3.5-4 artwork is acceptable and molds can be to match artwork. I can finish artwork for the 2.5-4 tire this week.

Metal Display Rack

Can you make a metal display rack for the small tires?

SGS Testing

Since this is a dog toy it must be non-toxic for dogs. We will need a SGS non-toxic test performed on finished product. Does SGS have an office in Qingdao?

Qingdao Visit

I plan to arrive on Sunday May 12th. I understand that Qingdao has a very nice beach area and central district. Are there any hotels close to the beach that you would suggest? How far is the Central District from your factory? If it is too far and inconvenient then I can stay closer to Yinzhu Town.

Hope you are well. Is your email working?

Regards,

Charles Byrne

Hi Chen:

Just returned home. Thanks so much for all the hospitality while Qingdoa.

Rubber Issues

The colored tires are turning black in the sun and oxidizing. I believe we need to add a Ultraviolet light and oxidization stabilizers. This should help with keeping the rubber looking good. Please advise.

Samples

Need five (5) samples each:

All bright Red

All bright Yellow

All Green

All Black

Black side and Red tread

Black side and Yellow tread

Yellow and Red

* samples rubber should be clean, no black marks, no turning black in sun, no white from oxidizing.

Can you ship new samples with improved rubber this week via UPS air express?

Also is it possible to change the paw designs?

Hand Truck Equipment

Please send pricing for your hand truck line. I can offer these items to my current customer base. Most pet shops use hand trucks and material handling equipment.

Thank you for cooperating with me on this project. I understand that this is a new type of manufacturing and will take some time to perfect. Please have a rubber specialist help you with improving the rubber composition. As we discussed we must introduce the **best high quality product possible** so we have a **successful high volume item**.

Please give my regards to Mr. Lu and the rest of the Mingxing team.

Regards,
Charles A. Byrne
President

Dear Charles,

Congratulate you having a success Trade Show.
Thank you for calling me, and sorry to reply you so late. For there are something urgent yesterday after you calling me. I think this will not very late for you.

As the black tire with white sidewalls -stripes, now the price will be same as the color tire for the special need, you know the smell will be fresh the white design will be difficult and in the first there will be many waste products, for your tire we assure the quality and not use recycle rubber. Only the black color cheaper than others and it need white sidewalls. But I promise if the quantity is large the price will be lower.

The price is attached in the proforma invoice, as the two color tire the price will be USD 0.20 higher in each size than the common.

Hope you have good days.
With the best regards,

Chen Zhan Feng

Hi Chen:

I received proforma Thank you. I will sign and return. Please advise payment terms. I will prefer a TT deposit and balance upon fax receipt of ocean bill of lading. This works best for most companies. Or perhaps on the first order we can use L/C.

First we need to make new Large 10" tire with:
1 new paw design - note 1/4" spacing between paws.
2. new name - PawTracks
3. TireBiter and PawTracks with white letters.
4. All Black

5. All Red

* Attached is revised artwork

Please confirm receipt

How long to change mold and make new samples. Need 10 samples each so I can start promoting and selling. I have several large buyers who need samples.

Will also need:

Non-Toxic certificate - SGS Testing labs

What will the price be for all black tires made from recycled rubber. Is the recycled material good? Non-Toxic? No Smell? Send a sample.

Also need a sample of the small tire metal display.

Please rush samples and PawTrack metal display.

Hope you are well.

Regards,
Charles

FAX

TO : CHARLES
FROM: CHEN ZHAO FENG
Date : June 27, 2001

Dear Mr. Charles,

I have received your fax and email, thank you.

As your requirement, the terms of payment we like 30% of the total value deposit by T/T and balance upon fax receipt of the B.L.

OK, upon approved samples.

Now we have new program of tire making in bright red. The old mold will be waste for there are much different between the two design. We will make new mold in two weeks. After confirmed the sample, please send me the second deposit of the mold for the 8" and 6" tire.

- OK

I have printed the picture by Illustrator 8.0. But sorry to tell you it is difficult to make the white letter in both side of the tire. I want know whether the one side letter is OK!

OK

In the first I will give the 10" tire sample to you, for your reference.

As the recycle rubber, we have send you the sample which contain some recycle rubber in the first time. The rubber will be in smell.

OK 1. Black with white letters
2. Red Bright

The display will be made soon before give you the sample. I will send you the picture for your reference.

- OK

In the end please reply me urgent and we will make the new design mold.

Yes.

With the best regards,

Chen Zhao Feng
zhfchen@21cn.com

Chen,
Thanks for fax.

Please make 10" new design mold.
Make samples in Black with white letters
and in Bright Red. Send 3 each ASAP.

Thanks,

Dear Chen:

Faxed are comments regarding samples. I emailed yesterday. Did you receive?

I want to perform toxicity test this week. Please confirm that recent samples are nontoxic. Also I need exact composition of tire. Please confirm material used to make tires ASAP so I can proceed.

1. Rubber composition
2. Glue composition
3. Paint
4. Metal bead
5. Polyester fibers
6. Anything else

Test cost \$1500 so it is important that I use non-toxic samples.

Hope you are well.

Regards,

Charles Byrne

Emailed 7/29/01

Hi Chen:

I recieved the samples yesterday. The TireBiter PawTracks look very good. I like the all black and all red with white logo. Looks great. Congradulations.

Comments as follows:

1. White logo paint - could be a little cleaner.
2. Side Type letters - The type on the inner ring by the bead is missing. Also the spacing on side type letter is not correct. Type should be excatly like the art I sent. The "Large" should be in the oval ring as before. Can this be improved?
3. Black rubber still smells. Is the black 100% natural rubber - not recycled. Can this be improved?
4. Toxicity - Please confirm that all materials are non- toxic. Rubber, polyester fibers, metal bead, logo paint. I need to have the product tested for toxicity before we proceed. This toxicity test cost \$1000 in the USA. Can I test the recent samples for toxicity? Once you confirm the material toxicity and I have a non-toxic test we can proceed. TireBiters-PawTracks must always be non-toxic.

Otherwise everything looks good. I think we have a good product that we can sell high volume.

I will be in China in late August. I would like to visit you. Please send invitation.

How are you?

How is progress on the new 10" Pawtrack mold? Need samples of 10" Black with white letters and Bright Red so I can approve. 3 each. Please ship air express ASAP.

In the middle of August I have a big exhibition where we need to show all the sizes - 6" -8" -10". Is this possible?

How is progress on the tire display. Please send picture.

Please try emailing me at cb1@mammothpet.com. Also send me a fax reply.

Hope you are well.

Regards

Charles Byrne

Dear Charles,

Dear Mr. Charles,

The mold for 10" has been made last week and it will be finished in the next Monday.

If every thing all right I think you will have all the samples in the middle of the August.

As the tire display Mr. Lu has designed and will be made soon. I will send you the sample ASAP.

In the first I can receive your email but you can't receive my email. Please check your POP3 service.

With the best regards.

Subj: Re: Bead Problem
Date: 8/6/2001
To: zhfchen@21cn.com

Dear Chen:

Thanks for your message.

I am sorry to hear about the bad weather. Hopefully things are better.

Metal Bead

Yes, please discuss with Mr. Lu about the metal bead problem and material composition.

1. Can we replace the metal bead with a hard plastic nylon bead? Did you ever try this?
2. Weld the ends of the bead wire so the bead ring will not come apart. This seems easy to weld the metal wire.
3. Increase rubber around the bead section.

What does Mr. Lu think we can do? These is a serious problem which must be solved in order to proceed.

Toxicity

We will be tested the paint, rubber, and metal bead for toxicity. Please advise material composition.

Visit

I will be in China in later this month. I would like to visit you at the factory on September 3-4th. Please confirm that you and Mr. Lu will be avialable.

Orders

Once we solve the metal bead problem and confirm non-toxicity we can proceed. I will be able to take 1-3 containers. This will be a high volume product.

Hope you are well.

Regards,
Charles

Re:

CC:

Dear Mr Lu and Chen:

I have not heard from you regarding the metal bead, material composition, and my Qingdoa visit.

I feel that we are very close to starting high volume production of TireBiter. Please let me know the current situation. Both our companies have invested money and time in this project so I am anxious to start ordering.

I will be in China August 25 – September 6th. I plan to visit Qingdoa. I would like to visit with you on September 3-4th. Please confirm that you will be available so I can make arrangements.

Regards,

Charles Byrne

Dear Mr.Charles

I have replied you by fax for some times maybe there were some problem with our e-mail
I have faxed you the invitation last. Please check.

Then I fax you my last two e-mail message.

DATE: AUG. 7, 2001

Dear Mr.Charles.

Thanks for your email.

I will use another soft metal bead and weld the end,
we have try many time with nylon bead but the the products
is not satisfied.

As the red tire it has no good ways to solve better, we have
get the color tire from the mold factory, it is also turned
black under the sun. We will try it if we have new program.

Welcome you come again and I have faxed you the invitation letter.

With the best regards,

Chen Zhao Feng
zhfchen@21cn.com

DATE: AUG.10,2001

Dear Mr. Charles,

I have told Mr. Lu since I receive your message. I have sent you e-mail
and tell you the advice. We will use soft steel with weld end with no toxicity

We have tried with nylon bead, and find it is impossible. Now I give you
the specifications of bead. The whole diameter will be 104mm and the diameter
of the thread will be 3.2mm the plastic bead will not be turn soft in 190 cent grade.

With the best regards,

Chen Zhao Feng

Date: 12/16/2001
To: zhfchen@21cn.com

hi Chen:

Sorry for late reply. I've had a family crisis hence the delay in my response.

Yes, please proceed with Mint -spearmint scent in tire. Think about chewing gum scent Double Mint. Please rush sample. Maybe you can make several different scents. NO Odor No Scent is also good especially with black tire.

Yes, I have been in contact with another tire factory.

If you can produce acceptable quality I will order from MingXing. No problem.

Hope you are well. Give my regards to everyone at Mingxing.

To: CBDynamo@aol.com

Hi Charles,

We can produce in customer color, and we can make custom sidewall logo and tread design. We can make it all but we need your sample. We can make goods the same as your sample.

We have local Qingdao port, it is very convient for us. We ship all goods from Qingdao port to USA.
Our best price is: FOB Qingdao \$1.75, CIF LA \$1.94.

I will send you sample by Fedex instead of EMS because EMS ship goods too slowly, . If you agree freight collected, I will send you sample tomorrow.

Before sending sample, could you please e-mail me the picture of your tire for my reference?

Regards,
Eddie

DHL (800) 225-5345 #3

Dear Charles,

Our 10" tire can't be used without inner tube, it is not what you want. We have 5", 6", 8" tire without inner tube, without metal, I send you a sample of 10" tire and 5" tire with two catalogs to you by DHL, airway bill #2747138240. I pay the money of air freight this time.

At present, I can only quote you price of black rubber as follows:

5" black tire FOB \$0.26
7" black tire FOB \$0.62
9" black tire FOB \$0.95

- 10" Sample good
- 5" - 8" size
- no metal, thick wall,
- color, no odor, clean

we can manufacture other colors, their price will be higher, our producing department will quote price later.

Regards,
Eddie

Dear Charles,

We can meet all your conditions:

1. Colors Red Green Yellow Black
2. No metal bead
3. 30% Thicker Stronger Rubber - Strong Nylon ply
4. Custom Tread Design - Logo
5. Produce on exclusive basis.

Price is: 10" tire FOB Qingdao \$2.15, 7" tire FOB Qingdao \$2.00.

There is one thing I have to confirm with you. You want " No metal bead", Do you mean that you don't want the steel wire around the tire inside circyle?

Regards,
Eddie

Charles,

We have the 10" tire holding air and be hollow inside, the tire is semi-pneumatic. It doesn't have metal in the inside circle area. Your price is too low to accept. I don't know why your price is so much lower than our price.

color tire: 10" tire FOB Qingdao \$2.15, 7" tire FOB Qingdao \$2.00
black tire: 10" tire FOB Qingdao \$1.72, 7" tire FOB Qingdao \$1.60.

Timing
25 days to make custom design and 20 days to ship first container after you confirming the sample

Exclusivity
We will sign the non-disclosure agreement prior to proceeding.

Regards,
Eddie

Dear Charles,

We ship all the semi pneumatic tire to COSTCO WHOLESALE before Chinese New Year, We don't have sample at present. We will make 5 black samples for you. At present we can only make black samples. It will cost a lot to make color sample. It is nontoxic. We only have 10" semi pneumatic tire now.

Ocean freight from Qingdao to Los Angeles is \$2550 for 40/ft container now. 11000 pcs 10" tire can be load in a 40/ft container. I can't quote you CIF because shipping company will charge Additional Peak Season Charge from October to January every year because a lot goods will ship to USA at that time. It is about from \$300 to \$450.

I quote you the price base on very large quantity, there is no any discount.

Regards,
Eddie

To: CBDynamo@aol.com

Charles,

We can't manufacture Zhenhua style tire without metal bead. We can't replace with hard plastic bead. We don't have the technology. What we can do is only to make color tire. Price is:

10" black tire with metal bead: FOB\$1.44
10" color tire with metal bead: FOB\$1.80
8" black tire with metal bead: FOB\$1.34
8" color tire with metal bead: FOB\$1.68.

Freight *Duty* *Label*
* *.23* *.08* = *.20*

cost to make samples in colors for the 8" - 10" tire is \$1300.

Regards,

Eddie

Dear Charles,

I will leave China to Germany tomorrow and I will come back on Feb-23. I have arranged factory to make green color sample for SR0803. I will send you all the samples as soon as I come back.

Solid rubber tires without plastic hub:
SR0803 Black FOB\$0.43; Color FOB\$0.56
SR1007 Black FOB\$0.83; Color FOB\$1.07
SR1006 Stop manufacturing
SR0810 Black FOB\$0.56; Color FOB\$0.56
SR0810 is plastic tire instead of rubber material.

Regards,
Eddie

Dear Charles,

We can make tire with the custom sidewall logo and custom tread. Custom logo and tread mold modifications is included in the \$600 charge. It will take 30 days to make sample with custom logo and tread.

I can't improve my prices at present because I don't know what your products are. Perhaps I can make some reduction when I receive your sample.

Regards

Eddie

Hi Eddie:

Can you improve price on the color tires? Also can you make tire with the custom sidewall logo and custom tread. Is custom logo and tread mold modifications included in the \$600 charge.

How long to make sample production run with custom logo and tread?

Please advise.

NON-DISCLOSURE AGREEMENT

THIS AGREEMENT is entered into between CB Worldwide Inc/MPP ("Proprietor") and Qingdao Huatian Hand Truck Co. Ltd ("Disclosee") on this 18 day of August, 2001.

1. Proprietor has developed certain techniques and material described below which are valuable and confidential intellectual property of Proprietor. The material which is subject to this Agreement is described as:

Small Tire Toy Product with no metal bead

and is hereafter referred to as the "Confidential Information".

2. Proprietor and Disclosee wish to enter into discussions and negotiations and therefore the Confidential Information will be disclosed in detail by Proprietor to Disclosee. It is acknowledged by Disclosee that the information being supplied by Proprietor represents valuable intellectual property rights of Proprietor including, but not limited to, trade secrets, copyrights and patents. The information and material whether written or oral being supplied to Disclosee is confidential in nature and this agreement forms a confidential relationship.

3. Therefore, Disclosee agrees to keep confidential any information or material it may acquire through the disclosure being made by Proprietor whether that disclosure is in writing or oral. Disclosee agrees to take appropriate steps to protect against disclosure of any material or information of Proprietor to third parties as well as against disclosure to its own employees who do not have a need to know the material disclosed by the Proprietor. Disclosee further agrees to not employ any material disclosed or information or techniques learned through such disclosure except by specific permission of Proprietor through appropriate licensing agreements. Disclosee agrees to not make copies of materials supplied by Proprietor which are part of this subject matter, except by specific permission of Proprietor.

4. Disclosee acknowledges that should Proprietor supply copies of any subject matter materials to Disclosee, Proprietor does not thereby waive any of its valuable intellectual property rights to keep such subject matter proprietary and confidential, except as specifically defined in any subsequent licensing agreement which may be entered into between the parties. Disclosee agrees to promptly return to Proprietor any material supplied as part of this disclosure upon request of Proprietor.

5. The parties hereto agree that the consideration for this Agreement shall be the opening of opportunities for future beneficial relations which may result from this disclosure.

IN WITNESS WHEREOF, the parties hereto have executed this Agreement on the day and year first set forth above.

Hi Eddie:

We really need volume pricing as follows:

2.5-4 \$1.10
 3.5-4 \$1.30

Initial order 2 containers
 Ongoing 1-2 per month

Also need a 6" diameter tire.

What hotel do you recommend I stay at in Yinzhu? I have some business in Qingdoa area also.

Please advise.

Regards,
 Charles

Hello Charles,

Pricing

For the 3.5-4 tire at 1000g the price will be:

Black with white letters - \$1.40

Red with white letters - \$1.65

Product Specifications

No bad odor or smell

Non- Toxic

No Metal Bead

Natural Rubber - no recycled rubber

Red color will not turn black or fade in sun

Pepper mint scent

Scenting

We will try your suggestion.

Exclusivity

Huatian will produce this TireBiter Dog Chew toy exclusively for CB Worldwide. I confirm.

Molds

We have arranged to make mold.

We will let you know as soon as we receive your TT\$ for molds.

Regards

Eddie

Subject: follow up

Hi Eddie:

It was a pleasure meeting you and the Huatian team. Thanks for your hospitality.

I have returned to the US. I would like to confirm the items discussed during our meeting:

Pricing

For the 3.5-4 tire at 1000g the price will be:

Black with white letters - \$1.40

Wednesday, September 12, 2001 America Online: CBDynamo

Red with white letters - \$1.65

Product Specifications

No bad odor or smell

Non- Toxic

No Metal Bead

Natural Rubber - no recycled rubber

Red color will not turn black or fade in sun

Pepper mint scent

Scenting

I learned that other rubber pet toy manufacturers wipe/rub the scent with a silicone liquid onto the tire to get a nice shine and scent the rubber.

Maybe this is a less expensive option then adding the scent to rubber.

Exclusivity

Huatian will produce this TireBiter Dog Chew toy exclusively for CB Worldwide. Please confirm.

Molds

3.5-4 mold will take apporx 20 days and cost \$625.

Please advise mold status. Please rush since I need samples by end of month for a trade show.

TT\$ for molds will be sent this week. Please confirm receipt.

Hope you are well.

Regards,
Charles A. Byrne
President

Hi Charles,

1. The white paint on logo is nontoxic paint.
2. We can not improve smell in short time. But we will try.
3. I will prepare 6 more black and 6 red samples for you.
4. We will begin Medium size(2.50-4) after we receive your mould charge \$625. We try small size 6" but we failed. So that we can not supply you 6" now.
5. Price for 8" black is FOB \$1.30, Price for 8" red is FOB \$1.55.
6. You gave the drawing of display rack. We are doing the project.
7. We can use our current tire making technology to make different designs. We can make any shape according to your samples.

Regards
 Eddie

Subject: tire sample

Hi Eddie:

Received sample. It looks good Please confirm that the white paint on logo is nontoxic paint. Also can you improve smell?

Please prepare 6 more black and 6 red samples.

I would like to proceed with the medium and small size TireBiters.

Medium size - 2.5-4 dimension
 Small Size - maybe 500 grams

Please confirm the smallest size tire dimensions so I can prepare artwork. Please confirm small - medium tire size prices. I would like to order 5,000 of each size Tirebiter ASAP. Need by December. Will need a 2nd container in January. We also need to make tire display rack. Did I give you drawing? Please RUSH this project.

Can we use your current tire making technology to make different designs? Such as bone design. Ball design. Square design???? What shapes can we make using tire technology???

Hope you are well.

Regards,
 Charles

To: CBDynamo@aol.com

Hi Charles,

I misunderstand you want **1000 gram weight 10"** and **500 gram weight 8"** first. Now I know you want light tire.

10" 800 gram weight \$1.30 black, \$1.45 red.

8" 400 gram weight \$1.10 black, \$1.25 red.

I faxed you proforma invoice 760-9349985. Please sign it back to our fax machine 0086-532-3195157. One 40ft container can load 8400pcs. We will load half 4200pcs black and half 4200pcs red. Packing 20pcs in a carton. We arrange to open 3 more 10" tire mould in order to ship you goods at beginning of December.

I think we can pass 6" tire within 45 days. We will let you know as soon as we pass 6" tire.

I am looking forward to receiving your other tire designs and other plastic products.

Regards
 Eddie

Subject: Re: tire sample

Hi Eddie:

Thanks for quick reply.

Unfortunately your medium tire size price is too high. I don't understand why the medium price is higher than 10". Please quote on **400 gram weight**. This is 50% weight of 10" design. Target price is \$1.10

Please confirm 10" size pricing. Should be \$1.30 black \$1.45 red. Right?

In the case that you only do the 10" size I would like to order one 40ft container. Please send proforma invoice. 50% red 50% black. Let's get started

Also I need a 6" size. Please work on this size. Let me know about the smaller size tire prices so I can proceed accordingly. I have another tire company that can now make tires including 6" without metal beads good quality. However, I would prefer to purchase all size from your company.

Also I am developing some other tire designs and other plastic products. I will send samples shortly.

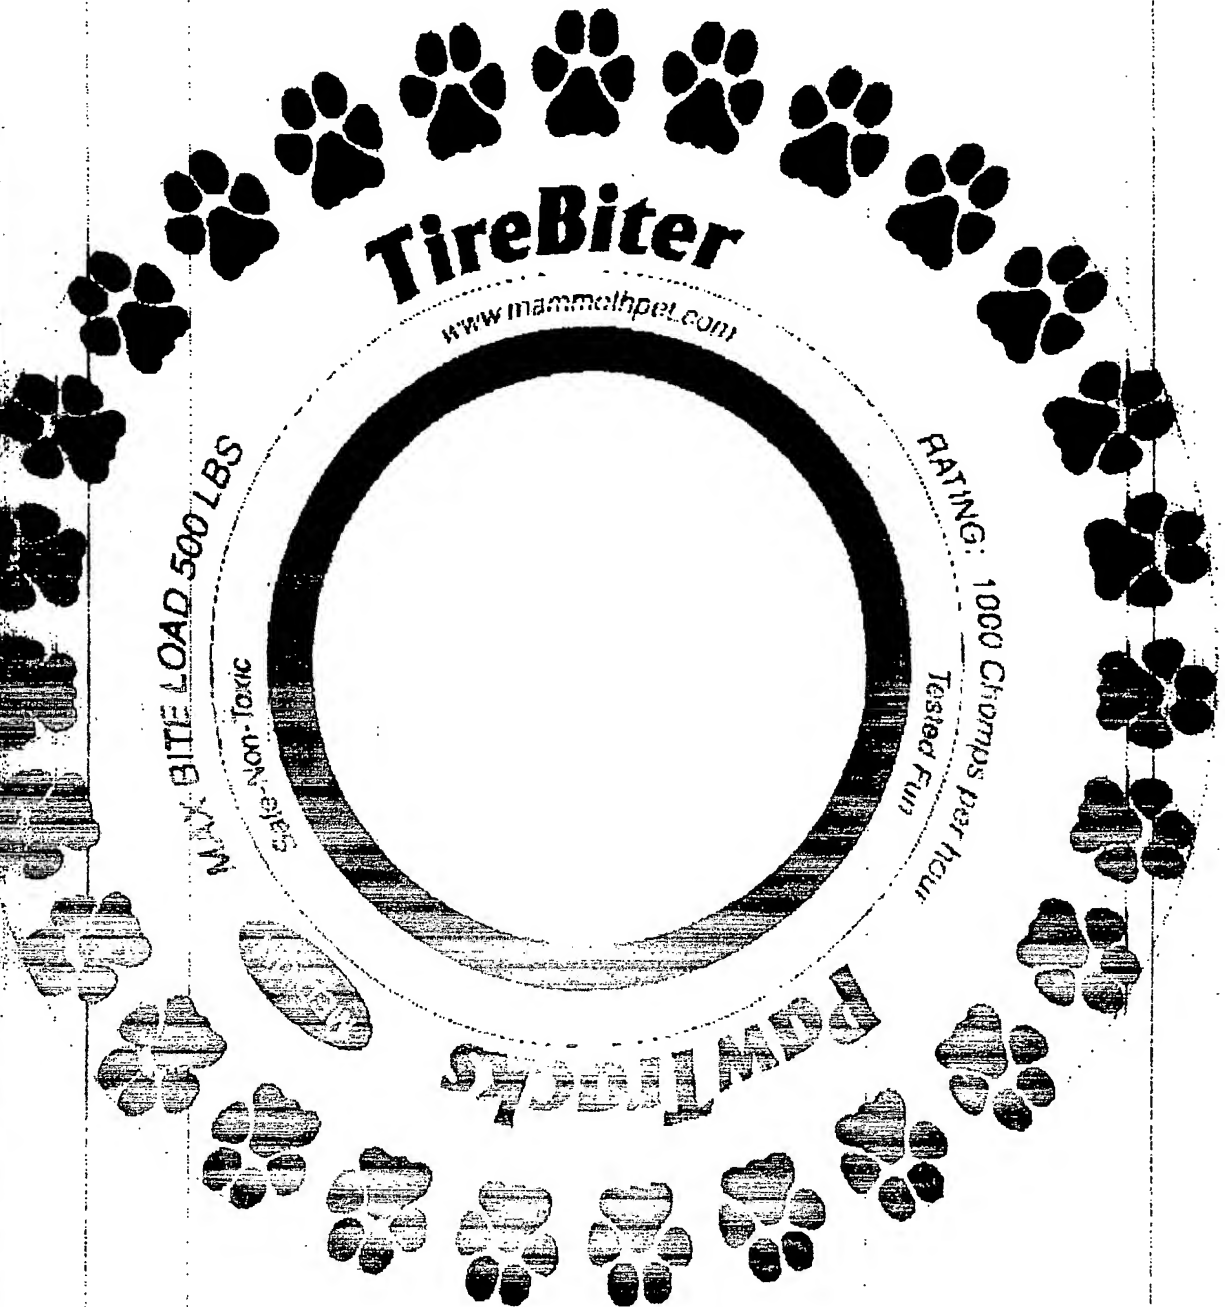

Hope you are well..

Regards,
 Charles

Hi Eddie:

Can you modify mold so that the sidewall around the bead section is thicker with lots of 2 ply nylon reinforcement. Please advise.

Regards,

Charles Byrne

Charles,

have a good news for you. We can make 6"*2" tire now, inside dimension is 3". 6"*2" Price is cheaper than 8" tire. 6" Black \$1.05, 6" Red \$1.20. Please design the tread.

Regards
Eddie

Dear Charles,

pricing for

10" 1000 gram Black \$1.40 and RED \$1.65
10" 900 gram Black \$1.35 and RED \$1.55
8" 400 grams Black \$1.10 and RED \$1.25
6" we are testing. Our technical department told me that its price is higher than 10" because of more complicated technology.

1. Please tell me the contact information of Phoenix International ocean freight so that I can call them.
2. We can send you samples within a week. Please let me know do you prefer 1000 gram or 900 gram after receiving the samples.
3. Please arrange to send me your color cartoon so that we can tie them on the tire.

Regards
Eddie

Hi Charles,

I have noted letters Small and Medium. We are fixing molds.

I agree to give you small size for \$0.90 as gift for new year .

Our price are:

10" \$1.40

8" \$1.10

6" \$0.90

If you think everything is ok. We will start each 5000pcs for 6",8" and 10" tomorrow. I will fax you proforma invoice later.

Regards

Eddie

Subject: samples

hi Eddie:

Happy New Year.

Received samples. Look good except:

Oval size copy on 6" says "Large" should be Small in oval

Oval size copy on 8" says "Large" should be Medium in oval

Please fix. I will be printing labels and send to you.

when can you start production? Now that you made small and medium sizes can you improve prices. It would be good to make small size for \$0.90.

Regards,
charles

From: eddieyung16@hotmail.com (Eddie Yung)
To: CBDynamo@aol.com

Hi Charles,

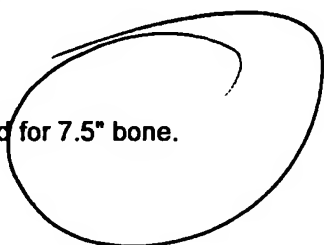

We finished your first order and loaded them into container. This container will leave on December 26th.

We put 10pcs 8" tire 750 grams 2ply and 10pcs 8" tire 750 grams 4ply at the door.

Ingredient for the tire:

50% natural rubber
45% carbon black
4% nylon
1% other additive

We are making mold for 7.5" bone.

Regards
Eddie

Pan will be used for cat litter pan. It will get wet with cat urine so it cannot rust. We can discuss when I get to Qingdao.

Glad you got TT\$

So when do you think you can ship next container with tires with rope. We need very badly. Once you get knot tyers we need to rush production. OK.

Regards,
Charles

Hi Charles,

Your latest order is finished. We are waiting for 8" and 10" labels.

Our current 6" tire is 240g. It is the lightest. Nylon thread will be out of rubber if weight is lower than 240g.

We will start producing immediately 500gram Medium 8". Please tell me quantity you want.

Medium 8" - 750 grams 4 ply nylon FOB\$1.50

Large 10" - 1500 grams 4 ply nylon FOB\$2.05

We finished above samples.

Regards

Eddie

Hi Eddie:

Yes, please increase small logo 30% ASAP. What is the lightest Small 6" possible?

Also I would like to start producing immediately 500gram Medium 8" Please confirm. We are having many complaints that the 450g is not strong enough.

Regards,

Charles
